Since September 23, 2021, Gisela Castro Medina has resided in a Court-ordered halfway house while participating in substance abuse and mental health programing. During this time, she has successfully completed six Court-approved visits to the home of her parents. Given her overall progress, it is recommended the defendant be allowed to release from the halfway house to reside with her family. In addition, it is recommended the condition restricting contact with minors be modified to allow contact with immediate minor family members. Defense counsel supports this recommendation. The Government does not object to the proposed changes.
